Subject: Cristalina LLC
Rate Case UW-090516

Data Request 3
Via email and postal mail

Dear Ms. Lindberg:

The Washington Utilities and Transportation Commission (commission) has received your tariff filing for a surcharge. To help us understand your current situation, please answer the following questions:

1. The revised profit and loss statement for 2008 provided as part of Cristalina's response to data request 2 includes a new expense of \$7,500 in loan preparation fees. Please provide documentation related to this expense. To whom was it paid, and what services were provided?

Commission staff is arranging for this filing to be on the open meeting agenda of May 28, 2009 for recommendations and action. Data requests responses, discussions, and analysis need to be completed before May 15, **so please return all responses by May 6, 2009**, for staff to prepare materials for the meetings and avoid any delays in the effective date of this filing. If you have any questions, please contact me at awhite@wutc.wa.gov or (360) 664-1247.

Sincerely,

Amy White
Regulatory Analyst, Water
